Stoneco's Mixed Limestone Base incorporates various aggregate sizes from 6" to 3/8" with fines to produce a versatile product to meet your needs. It's produced from a virgin limestone source that contains no contaminants, gradations are available upon request.

Stoneco of Michigan is proud to be a supplier of quality aggregates to the construction industry. I trust the above information will meet your requirements.

If you require any further information, please feel free to contact me, 734-770-0035.

Sincere regards,

Austin Fisher,

Quality Control Manager
